```javascript
// Smooth scroll to sections
function scrollToSection(sectionId) {
    document.getElementById(sectionId).scrollIntoView({ behavior: 'smooth' });
}

// Basic form submission alert (replace with real functionality later)
document.querySelector('form').addEventListener('submit', function(e) {
    e.preventDefault();
    alert('Message sent! We'll get back to you soon.');
    this.reset();
});
```
